

MASSACHUSETTS BROADBAND PROVIDER LIST

The MBI performed web research and/or attempted to contact all companies potentially offering broadband services in Massachusetts, including companies that filed FCC Form 477 and additional providers identified by the MBI through other sources, to verify if they qualify as a broadband service provider in Massachusetts.

Companies were asked the following questions to determine how to classify them and if they should be included on the state and national broadband maps.

1. Do you provide broadband services in MA?
2. What part(s) of MA do you serve?
3. What type of broadband services do you offer?
 - What type of technologies?
 - Do you offer residential services, business services or both?
4. Do you own the infrastructure or are you a reseller?
5. Do you offer separate services under different names or do you have multiple names related to the same service?
6. Can you provide service within 10 days?

BROADBAND PROVIDERS INCLUDED IN THE BROADBAND MAP

Most of these companies contributed data directly; however, some data was acquired from companies' web sites.
